Vicenza (Italy), 16<sup>th</sup> – 20<sup>th</sup> January 2026 - From 16<sup>th</sup> to 20<sup>th</sup> January 2026, Vicenzaoro is back as the international gold and jewellery world's reference platform, a business, training and information hub for the global community. An indispensable event for market players and the industry's thought leaders, Italian Exhibition Group's (IEG) b2b trade show opens the global calendar of sector events with a programme of talks, seminars and meetings that will develop the jewellery story through the claim **People · Product · Places**: an ecosystem that centres on people, the value of the product and the places – both physical and cultural - where the jewel is born, transformed and marketed.

### PEOPLE: EXCELLENCE THAT INSPIRES TALENT

The Vicenzaoro January story starts from people and the sector invests in the talents of tomorrow. On **Friday 16<sup>th</sup> January**, at 8.30 am, students begin the IEG event's proceedings which open the doors of its Palladio Theatre to the **Golden Talk**, organized in collaboration with Skuola.net. The official **opening ceremony** to formalize the start of the event follows at 12 noon. Young goldsmith talents are also at the fore in the **PROGOLD Design Contest** (Friday) and at the meeting with **Assocoral** (Sunday) on the power of **artisan know-how** in which skills, craftsmanship and creativity are essential levers for the future. **CIBJO**, on the other hand, focuses on **future generations of consumers** in one of the eight seminars of the *Jewellery Industry Voices series*, a joint CSR and sustainability educational programme for the jewellery industry presented by CIBJO and IEG, which has been recognized by the **Economic and Social Council (ECOSOC)** of the **United Nations**. Another new entry is the 27<sup>th</sup> Symposium for the thirtieth anniversary of **FEED** - Federation for European Education in Gemmology, which, with an eye towards young European talents, features some of the most authoritative voices on the global gemmological scene.

### PRODUCT: JEWELLERY BETWEEN TRENDS AND SUSTAINABILITY

Products are the core of Vicenzaoro, the trend show which, with **Trendvision Jewellery + Forecasting**, its permanent observatory on luxury trends, provides previews of the languages, shapes and directions of contemporary design. Entitled "*Coded Couture*", Saturday's event offers companies a concrete tool for planning new collections and strategies. Between Saturday and Sunday, great attention is paid to **gems**, the protagonists of a complex cultural and professional journey. **IGI's Gem Talk** entitled "**Red Ruby. From the mine to the jewel**" turns the spotlight on the queen of precious gems and analyse its value along the supply chain, from origin to the final consumer. The **Japan Pearl Exporters' Association** analyses the **history, quality and sustainability of the Akoya pearl**, while **CIBJO** delves into the effects of **AI on gemmological laboratories and certificates**, the potential of **coloured gems**, and the **diamond** industry's current state and

prospects. The story is further enriched by witness accounts of the profession and the vision of jewellery that **Assogemme** offers at every edition, involving authoritative voices from the most popular jewellery companies. The industry snapshot is completed by a series of technical insights that CIBJO dedicates to **sustainability, traceability, regulatory compliance and innovation**, suggesting tools and best practices that companies operating in global contexts find useful. In addition to introducing the **Gold Principles Group**, which promotes collaboration across the value chain in order to achieve **common sustainability goals, risk management, promoting change within the supply chain**, and the use of **DNA-based physical tracers and blockchain technology** for tracking and **tracing gems, diamonds and jewellery** is also discussed.

#### **PLACES: MARKETS, SCENARIOS, RETAIL**

Support for interpreting market trends comes from **Club degli Orafi and Intesa Sanpaolo's** customary analysis of the economic scenario, sector sentiment and prospects for internationalization (Friday). The topic of places of consumption is central in **Confcommercio Federpreziosi's Retail Talks** (Monday) which spotlights points of sale and consumer behaviour, exploring the narrative and emotional levers that influence jewellery purchases. The events are transmitted in **streaming**. The complete and constantly updated version of the **programme is available at [vicenzaoro.com](http://vicenzaoro.com)**.

## **FOCUS ON**

Italian Exhibition Group S.p.A., a joint stock company listed on Euronext Milan, a regulated market organised and managed by Borsa Italiana S.p.A., has, with its facilities in Rimini and Vicenza, achieved national leadership over the years in the organisation of trade shows and conferences. The development of activities abroad - also through joint-ventures with global or local organisers, in the United States, United Arab Emirates, Saudi Arabia, China, Mexico, Germany, Singapore, Brazil, for example - now sees the company positioned among the top European operators in the sector.

This press release contains forecasted elements and estimations that reflect current management opinions ("forward-looking statements") especially regarding future managerial performances, investments, cash flow trends and financial organization evolution. By nature, forward-looking statements have an element of risk and uncertainty since they depend on future events. The effective results may therefore differ, even significantly, to those announced due to multiple factors including, merely by way of example: the catering market's foreign trends and tourist flows in Italy, market trends in the gold-jewelry industry and in the green economy; developments in the price of raw materials; general macro-economic conditions; geo-political factors and changes in the legislative framework. Furthermore, the information in this press release does not claim to be complete, nor has it been verified by independent third parties. The forecasts, estimations and objectives presented herein are based on information available to the Company at the press release issue date
