Vicenza (Italy), 10th December 2024 – From 17th to 21st January 2025, Vicenza will be the centre of technological innovation for the jewellery industry with the return of T.Gold, the global event of reference for cutting-edge jewellery processing machinery and technology.

Organised by IEG - Italian Exhibition Group in conjunction with Vicenzaoro January, the most important international event dedicated to the jewellery supply chain, T.Gold will feature **the most complete offer of jewellery machinery and technology** thanks to **170 companies from 16 countries**, resulting in an **increasingly global event with all the excellence of Made in Italy and 40% of foreign exhibitors**. Germany, Turkey, Switzerland, the United States and the United Kingdom will be the countries most represented.

Top companies such as **Elettrolaser, Italmimpianti Orafi, Sisma, Orotig and Legor Group** will be in attendance, confirming Made in Italy's leadership in the sector. While top international players will include companies such as Germany's **Heimerle + Meule and Schultheiss**, Switzerland's **Starrag Vuadens** and **Goodwin Refractory Services** from the UK.

The **Jewellery Technology Forum (JTF)**, organised by IEG in cooperation with Legor Group, will also be back. One of the most eagerly awaited moments of the event, it will provide an overview of the sector's future trends and challenges.

HIGH-TECH INNOVATION AND SUSTAINABILITY FOR THE SECTOR'S DEVELOPMENT

A strategic event for the jewellery industry, T.GOLD is the platform where high technology meets goldsmith tradition to respond to the **needs of a constantly evolving market** that is **increasingly competitive and attentive to product and production process sustainability**, customisation and maximum technical precision.

In **Hall 9**, conveniently connected to IEG's Expo Centre by a free shuttle service, all the most avant-garde solutions to transform manufacturing, improve production efficiency, promote environmental impact reduction, the responsible use of resources and traceability along the supply chain.

TECHNOLOGICAL PROGRESS IN 6 PRODUCT CATEGORIES

T.Gold responds to an articulated demand that ranges from multifunctional machinery to optimising precious material processing, fully customised solutions for niche productions that enhance craftsmanship and design and equipment and tools for workbenches and goldsmith workshops. The largest jewellery production and processing showcase will be organised into six main categories: **alloy treatments and electroplating, technologies for prototyping and digital production, advanced mechanical machining, assembly and soldering techniques, refining and recovery processes, finishing and tools.**

FOCUS ON

Italian Exhibition Group S.p.A., a joint stock company listed on Euronext Milan, a regulated market organised and managed by Borsa Italiana S.p.A., has, with its facilities in Rimini and Vicenza, achieved national leadership over the years in the organisation of trade shows and conferences. The development of activities abroad - also through joint-ventures with global or local organisers, in the United States, United Arab Emirates, Saudi Arabia, China, Mexico, Germany, Singapore, Brazil, for example - now sees the company positioned among the top European operators in the sector.

This press release contains forecasted elements and estimations that reflect current management opinions ("forward-looking statements") especially regarding future managerial performances, investments, cash flow trends and financial organization evolution. By nature, forward-looking statements have an element of risk and uncertainty since they depend on future events. The effective results may therefore differ, even significantly, to those announced due to multiple factors including, merely by way of example: the catering market's foreign trends and tourist flows in Italy, market trends in the gold-jewelry industry and in the green economy; developments in the price of raw materials; general macro-economic conditions; geo-political factors and changes in the legislative framework. Furthermore, the information in this press release does not claim to be complete, nor has it been verified by independent third parties. The forecasts, estimations and objectives presented herein are based on information available to the Company at the press release issue date
