*Vicenza (Italy), 17-21 January 2025* – Vicenza as the centre of technological innovation for the jewellery industry with the return of **T.Gold**, the global event of reference for cutting-edge jewellery processing machinery and technology. Organised by **Italian Exhibition Group** in conjunction with **Vicenzaoro January**, from 17<sup>th</sup> to 21<sup>st</sup> January, T.Gold features the most complete offer of jewellery machinery and technology thanks to **170 companies** from **16 countries**, resulting in an increasingly global event with all the excellence of Made in Italy and **40% of foreign exhibitors**. Germany, Turkey, Switzerland, the United States and the United Kingdom are the countries most represented.

Top companies such as **Elettrolaser**, **Italimpianti Orafi**, **Sisma**, **Orotig** and **Legor Group** are in attendance, confirming Made in Italy's leadership in the sector. While top international players include companies such as Germany's **Heimerle + Meule and Schultheiss**, Switzerland's **Starrag Vuadens** and **Goodwin Refractory Services** from the UK.

The **Jewellery Technology Forum (JTF)**, organised by IEG in cooperation with Legor Group, is also back. One of the most eagerly awaited moments of the event, it provides an overview of the sector's future trends and challenges.

### HIGH-TECH INNOVATION AND SUSTAINABILITY FOR THE SECTOR'S DEVELOPMENT

A strategic event for the jewellery industry, T.GOLD is the platform where high technology meets goldsmith tradition to respond to the needs of a constantly evolving market that is increasingly competitive and attentive to product and production process sustainability, customisation and maximum technical precision. In **Hall 9**, conveniently connected to IEG's Expo Centre by a **free shuttle service**, all the most avant-garde solutions to transform manufacturing, improve production efficiency, promote environmental impact reduction, the responsible use of resources and traceability along the supply chain.

### TECHNOLOGICAL PROGRESS IN 6 PRODUCT CATEGORIES

T.Gold responds to an articulated demand that ranges from multifunctional machinery to optimising precious material processing, fully customised solutions for niche productions that enhance craftsmanship and design and equipment and tools for workbenches and goldsmith workshops.

The largest jewellery production and processing showcase will be organised into six main categories: alloy treatments and electroplating, technologies for prototyping and digital production, advanced mechanical machining, assembly and soldering techniques, refining and recovery processes, finishing and tools.

## FOCUS ON

Italian Exhibition Group S.p.A., a joint stock company listed on Euronext Milan, a regulated market organised and managed by Borsa Italiana S.p.A., has, with its facilities in Rimini and Vicenza, achieved national leadership over the years in the organisation of trade shows and conferences. The development of activities abroad - also through joint-ventures with global or local organisers, in the United States, United Arab Emirates, Saudi Arabia, China, Mexico, Germany, Singapore, Brazil, for example - now sees the company positioned among the top European operators in the sector.

This press release contains forecast elements and estimates that reflect the management's current opinions ("forward-looking statements"), particularly regarding future management performance, realization of investments, cash flow trends and the evolution of the financial structure. For their very nature, forward-looking statements have a component of risk and uncertainty, as they depend on the occurrence of future events. The effective results may differ (even significantly) from those announced, due to numerous factors, including, only by way of example: food service market and tourist flow trends in Italy, gold and jewellery market trends, green economy market trends; the evolution of raw material prices; general macroeconomic conditions; geopolitical factors and evolutions in the legislative framework. Moreover, the information contained in this release does not claim to be complete, and has not been verified by independent third parties. Forecasts, estimates and objectives contained herein are based on the information available to the Company as at the date of this release.
