INSPIRING.
100 % UNIQUE.
INTERNATIONAL.

YES! I do.

Engagement rings from acredo are modern, powerful, yet timeless. The focus is always on an excellent diamond. Get inspired by our large selection and create your own. Your acredo engagement ring will be as multifaceted and unique as your love.

Certified DIAMONDS

A single ray of light is enough to ignite the fire inside a diamond. Born in the depths of the earth, every stone is special.

At acredo we only offer you the best diamond qualities. From a stone size of 0.3 ct, each diamond has an international certificate of excellence.

Engagement

SOLITAIRE

Classic solitaire engagement rings are made in a casting process. They convince with lovely details like hidden hearts and a great wearing comfort.

Engagement

CHARISMA

The Charisma collection features creative engagement rings with bigger diamonds in different add-on settings.

mix & match RINGSETS

Both, the classic Solitaires or Charisma engagement rings are made for the perfect fit to your wedding rings.

Mix them with a classic plain wedding band, a sparkling eternity ring or unique wedding rings. Get inspired and create.

Your Love YOUR RINGS

You have your own style. Your love is unique. That's how your rings should be, too. Reason for us to offer you a lot of inspiration for your own combinations and creations with our diverse ring sets.

Tell your own engagement and wedding story with perfectly matched ring sets from acredo - stacks of happiness and love.

100 % UNIQUE Wedding Rings

Inspiring design, perfect shapes, a certain natural feel and premium quality Made in Germany characterize acredo's wedding rings. Discover iconic collections, countless possibilities and create your own.

acredo – wedding rings perfectly suiting you, your style and your love.

Collection

FOREST GREEN

We love people, nature and our planet. The iconic Forest Green collection is our visual commitment to sustainability. Forest green diamonds meet unique Signature gold.

Collection

NATURAL BEIGE

The Natural Beige collection captures the colours and textures of wheat fields, harvest time and the good feeling of natural materials. Inspiration for elegant wedding rings with a natural twist.

Collection

POLAR

A collection celebrating the icy perfection of the polar regions with its white and blue shades.

White gold and platinum perfectly matches sparkling white and ice-blue diamond accents reminding us of snow crystals, polar lights and the Arctic Ocean.

Collection

SECRET HEART®

It is pure magic: when the ring is in your hand, you can see the shape of a heart. When you wear it on your finger, the heart changes into a gentle wave.

Bringing more love, happiness and joy into everyday life - that is the core of SECRET HEART® and our declared goal. That's why our actions are accompanied every day by this motto: „There can't be enough love in the world.“

Wedding rings and engagement rings with the hidden heart: SECRET HEART®. Discover the secret of love in a ring shape.

Collection

HEARTS

The heart is the symbol of love. That's why we don't just show it hidden away, but have dedicated an entire collection to it. Ribbons of hearts decorate the rings of the Hearts collection on the outside, on the side and on the inside.

Collection

CARBON

Black carbon sets accents. Wedding rings with carbon design details are rich in contrast. They prove character. Either striking with wide carbon discs or delicate with fine and curved carbon lines. Black is beautiful.

Collection

CARBON FILAMENTS

The Carbon Filaments collection features delicate designs in straight, diagonal or wavy lines.

Get inspired and create slim or wide rings with a certain temperament. Accent them with diamonds or play with different colours. The result are strong and unique signs of love.

Collection

FACETS OF NATURE

#Nature offers a wide range of rhythmic and symmetric structures. When we think of ice or crystals, we immediately think of the many facets that create a wonderful play of light.

These were the inspirations for a very unique group of designs.

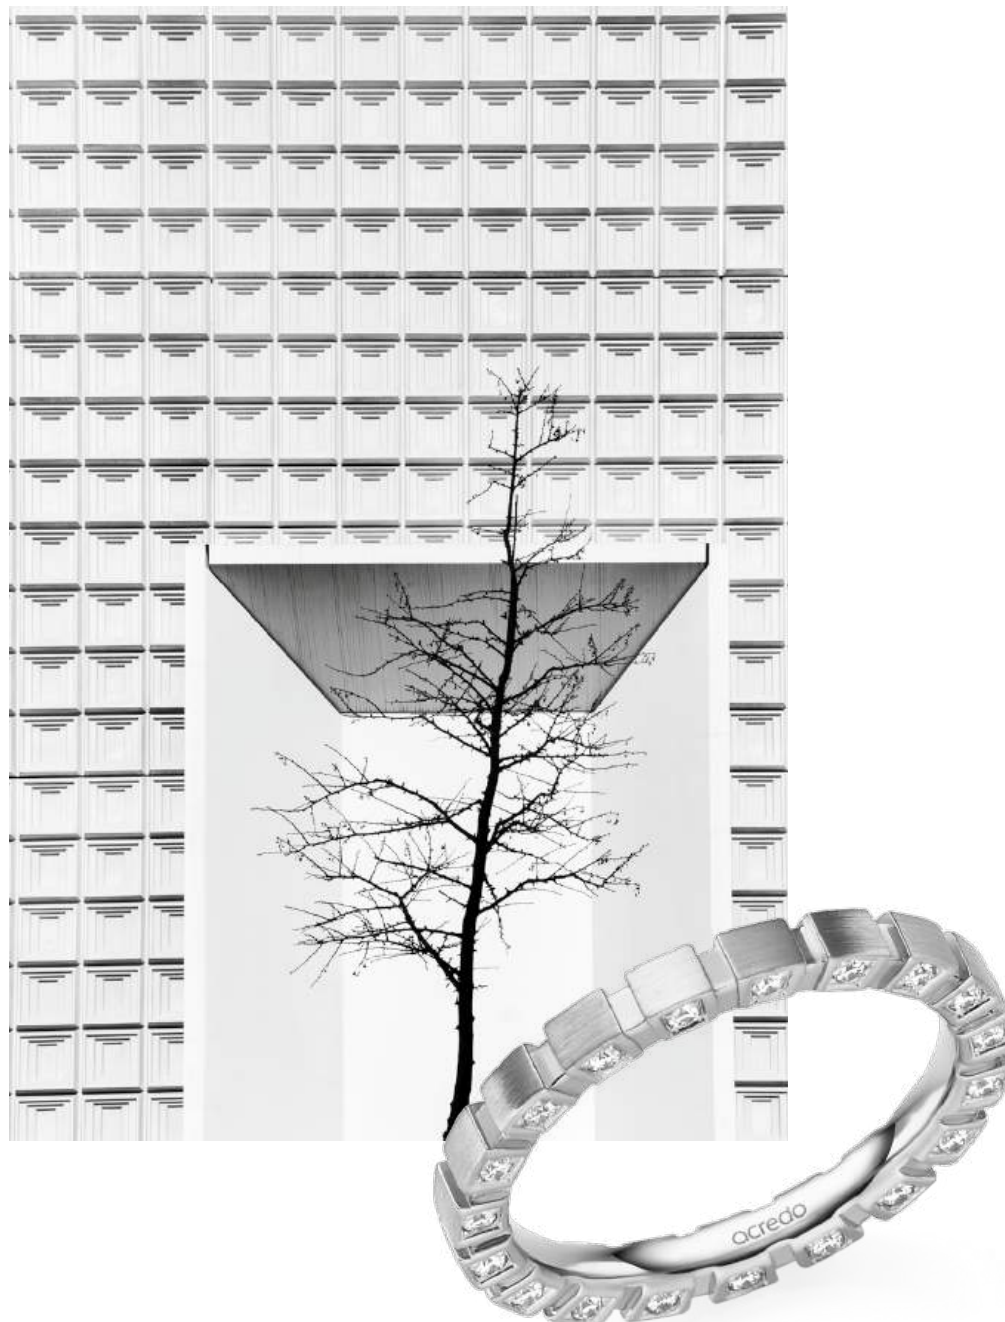

Collection

FACETS OF ARCHITECTURE

Like nature cities and buildings are following a certain rhythm and geometry defining space.

Looking at their structure, we were fascinated by the contrasts, the heavy material and the sharp angles.

This inspired us to use squares and rectangles as a basis for the designs and accentuate them by setting diamonds.

Collection

PASSION

The vibrancy and passion of Italy was the inspiration for colorful signs of love capturing timeless ornaments and the spirit of the Mediterranean.

Our Passion collection features wedding rings with ceramic details in white and anthracite. White embodies purity, positivity and lightheartedness. Anthracite represents strength, determination and resourcefulness.

Collection

MORNING GLOW

An early summer morning. A soft wind caressing the fields. Wheat and flowers stretch their faces towards the light. Morning dew or raindrops create magically glowing effects. This was the inspiration for the Morning Glow collection.

Each piece in the Morning Glow collection reflects radiant harmony, a perfect symbol of love's enduring glow and the shared journey of two hearts united.

Collection

FACETTED CONNECTIONS

The structures of our Facetted Connections collection not only create strong and expressive designs but also represent a feeling of belonging together.

When held next to each other the structures on both rings come together and the borders dissolve. They are a symbol of always being connected to each other even when being apart.

Collection

FACETTED CONNECTIONS

The designs have multiple inspirations. They connect to the sometimes mystic, symbiotic lives of plants while at the same time drawing from the myriad adornments of the wedding dress. Elegant folds, intricate embroidery or the clean lines of the groom's suit are all represented in the different structures of the rings.

Collection

PAPILLON

Butterflies are known for their graceful and joyful flight.

They symbolise the pursuit of happiness, joy and the freedom to explore the infinite possibilities of life.

GET INSPIRED & create

All our collections are meant to be a source of inspiration for your 100% unique wedding rings. Choose the models you like and change them according to your wishes. Or start creating your personal wedding rings from scratch with the acredo configurator. It's your choice.

In the end you will receive the most beautiful rings perfectly fitting to your life and your style, telling the story of your unique love.

ENDLESS POSSIBILITIES

The character of a ring is determined by several factors: the shape, the colour, the surface, the alloy, the stone setting and other details. Discover the endless possibilities.

The profile shapes from acredo are perfected in every respect. Whether softly curved or straight and graphic - the focus is on absolute wearing comfort.

With the acredo configurator, you also have the choice between various colours from flattering rosé, to extravagant red or green, restrained grey or the beige Signature gold colour.

Even the texture of the surface is a strong design element. Feel free to choose from 13 different finishes.

grey gold	Glamour
white gold	diagonal matte
palladium	polished
palladium silver	Reflex
platinum 600/-	standard matte
950 ^{999.9} PLATINUM	hammered polished
950 ^{999.9} PLATINUM	scratch matte
yellow gold	Nature
yellow gold 22kt	sand matte
green gold	hammered matte
Signature gold	Crushed
rose gold	cross matte
red gold	Crisscross

STONES

The magic of diamonds is our passion.

When it comes to setting stones, the acredo configurator shows all its skills: whether one or more diamonds, on the outside of the ring, on the side or even on the inside. Everything is possible.

The stone library provides you with a convenient overview of the most popular variations, which can be freely further developed up to the starry sky.

The choice of number, size and quality of the stones, right up to coloured stones, creates the highest level of individuality.

Message of Love ENGRAVING

Spell out your unique love – with a personal engraving on your wedding rings.

In addition to a wide variety of fonts and engraving ideas, acredo offers you the possibility to put individual laser engravings on your rings that will last forever. Add the wedding date and name of your partner, the verse of a poem or „your“ song, individual drawings or finger- and footprints.

Capturing MOMENTS

The wedding, Christmas, the birth of a child.
Your life together will give you many special
moments. For the most beautiful memories,
we at acredo develop eternity rings and jewellery
that perfectly match your wedding rings.
